Fellow Shareholders:

On behalf of the management teams of Four Wood Capital Advisors LLC (“FWCA”) and THL Credit Advisors LLC (“THL Credit”), I am pleased to share with you the performance highlights for THL Credit Senior Loan Fund (the “Fund”) for the six-month period ended June 30, 2017, along with market highlights for the same period.

### **First Half 2017 Market Overview**

The U.S. Leveraged Loan Market, as measured by the Credit Suisse Leveraged Loan Index (the “Index”)<sup>1</sup>, experienced positive returns for the first half of 2017, generating a total return of 1.96%<sup>2</sup> over the six-month period. The market started to lose momentum towards the end of the period, as the loan market contended with a record pace of re-pricings. June 2017 had a slight negative monthly return of -0.06%<sup>2</sup>, and this was the loan market’s first negative month’s return since February 2016. Returns during the first half of the year were driven by lower-rated assets with smaller facility sizes. The average price of the Index remained flat from the end of 2016, beginning the year at \$97.18 and ending June 30, 2017 at \$97.19<sup>3</sup>. Loan market performance is lagging 2016’s level due to lower interest rates overall.

The large wave of repricing and refinancing issuance in the first half of 2017 drove the new-issue loan volume, with \$577 billion in new-issue volume. 2016’s gross new issue volume was \$485 billion. Repricing activity accounted for 45% of the volume and refinancing activity accounted for 30% of the volume. Excluding refinancings and repricings, 2017 volume was still \$141 billion, which is almost double the volume of the first half of 2016 at \$78 billion<sup>4</sup>.

The positive trend of retail bank loan flows that began in July 2016 continued through June 2017, marking 12 consecutive months of inflows. Through the first half of 2017, inflows totaled \$17.2 billion<sup>4</sup>. However, the pace slowed in the first quarter versus the second quarter, with inflows of \$13.9 billion in the first quarter and \$3.3 billion in the second quarter<sup>4</sup>. Institutional investors continued to access the loan market by way of Collateralized Loan Obligations (“CLOs”). Total new CLO issuance, excluding refinancings and resets, was \$52.4 billion from 93 CLOs<sup>4</sup>.

The bank loan default rate at the end of June 2017 was 1.54%, down slightly from the year end rate of 1.58%<sup>5</sup>.

### **THL Credit Senior Loan Fund Performance**

As of June 30, 2017, the Fund had total investments in securities recorded at fair value of \$198.1 million and net assets of \$137.9 million. The Fund was invested in 152 securities (excluding its investment in a short-term money market fund) across 31 industries. The top 10 holdings (excluding short-term investments) covered 15.3% of the Fund’s total investments at fair value, and the top 5 industries covered 45.4%.

During the six-month period ended June 30, 2017, the Fund declared and paid monthly distributions \$0.105/share.

For the six months ended June 30, 2017, the Fund had returns of 3.19% and -2.06% on a NAV and market price basis, respectively, while the Index returned 1.96% over the same period. Since inception through June 30, 2017, the Fund had annualized returns of 6.53% and 4.45% on a NAV and market price basis, respectively, with the Index returning 3.69% over the same period. During the six months ended June 30, 2017, the Fund traded at an average discount to NAV of -3.5%.

The Fund’s outperformance relative to the Index is attributed to both portfolio allocations, as well as the Fund’s utilization of leverage. The Fund’s borrowings as of June 30, 2017 were \$58.0 million, up from \$52.0 million at year end. As a percentage of Managed Assets (defined as total assets of the Fund, including any

assets attributable for investment purposes minus the sum of the Fund's accrued liabilities, other than liabilities representing borrowings for investment purposes), the Fund's leverage was 29.6%, up from 27.3% at December 31, 2016. Over the six-month period, leverage as a percentage of Managed Assets averaged 29.0%.

As of June 30, 2017, the Fund's investments had larger allocations to higher yielding components of the market relative to the Index. Its investments, as a percentage of total investments, were allocated 80.4% to fully collateralized first-lien loans, 6.9% to second-lien loans, and 5.9% to fixed-rate corporate bonds. Comparatively, the Index was allocated 96.0% to first-lien and 4.0% to second-lien<sup>6</sup>. Additionally, the Fund's investments, as a percentage of total investments excluding short-term investments, across the credit ratings were allocated 0.3% to BBB, 17.3% to BB, 62.8% to B, and 19.6% to CCC/NR. The Index was allocated slightly more to higher credit quality with 8.0% to split BBB, 39.2% to BB/Split BB, 43.8% to B/Split B, and 9.0% to CCC/NR<sup>6</sup>.

During the six-month period ended June 30, 2017, the Fund earned \$6.7 million in interest income on its portfolio. First-lien assets contributed 84.4% of the income, while second-lien and fixed-rate corporate bonds contributed 9.4% and 6.2%, respectively. Net of fund expenses, the Fund generated \$4.7 million in net investment income for the period.

In January 2017, Avaya, Inc. filed for Chapter 11 bankruptcy. The Fund currently has a total exposure of \$4.6 million to Avaya (at fair value), which represents approximately 2.3% of the Fund's total investments at fair value.

On behalf of the management team and Board of Trustees, I thank you for your continued commitment and investment in the Fund.

Sincerely,

Steven A. Baffico  
President — THL Credit Senior Loan Fund

† Securities are US securities, unless otherwise noted below.

- (a) Senior loans pay interest at rates that are periodically determined on the basis of a floating benchmark lending rate, often subject to a floor, plus a spread. The most popular benchmark lending rate is the London Interbank Offered Rate (“LIBOR”). LIBOR is based on rates that contributor banks in London charge each other for interbank deposits and is typically used to set coupon rates on floating rate debt securities. LIBOR was the only benchmark utilized for the senior loans at June 30, 2017. The rate shown represents the contractual rate (benchmark rate or floor plus spread) in effect at period end. Senior Loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual maturity may be substantially less than the stated maturity shown.
- (b) Fair Value Level 3 security. All remaining securities are categorized as Level 2.
- (c) The Fund held defaulted securities for which the income has been deemed uncollectible. As of June 30, 2017, the aggregate value of those securities was \$3,765,200, representing 2.7% of the Fund's net assets. The Fund no longer accrues income on securities for which income has been deemed uncollectible.
- (d) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may not be resold subject to that rule except to qualified institutional buyers. Total fair value of Rule 144A securities amounts to \$10,366,855 which represents approximately 7.5% of net assets as of June 30, 2017. Unless otherwise noted, 144A securities are deemed to be liquid.
- (e) Less than 0.05%
- (f) Rate shown reflects the 7-day yield as of June 30, 2017.

(1) Based on average daily shares outstanding.

(2) Realized and unrealized gain on investments and delayed draw loan commitments per share in this caption are balancing amounts necessary to reconcile the change in net asset value per share for the period, and may not reconcile with the aggregate gains and losses in the Statement of Operations due to the share transactions for the period.

(3) Total return based on net asset value reflects changes in the Fund's net asset value during each period. Total return based on market value reflects changes in market value. Each figure assumes that dividend and capital gain distributions, if any, were reinvested. For NAV total returns, distributions are assumed to be reinvested at NAV on the distribution date. For market value total returns, distributions are assumed to be reinvested at the prices obtained under the Fund's Dividend Reinvestment Plan. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares traded during the period.

(4) Annualized.

(5) Average for the period since the first borrowing day of October 15, 2013.

(6) Asset coverage equals the total net assets plus borrowings divided by the borrowings of the Fund outstanding at period end (Note 4). As debt outstanding changes, level of invested assets may change accordingly. Asset coverage ratio provides a measure of leverage.

*See accompanying Notes to Financial Statements*

## 1. ORGANIZATION AND OPERATIONS

THL Credit Senior Loan Fund (the “Fund”) is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund is an unincorporated business trust established under the laws of Delaware by an Agreement and Declaration of Trust dated July 30, 2013. The Fund commenced operations on September 20, 2013.

The Fund’s investment objective is to provide current income and preservation of capital primarily through investments in U.S. dollar-denominated senior secured corporate loans and notes (“Senior Loans”).

Four Wood Capital Advisors LLC (the “Adviser” or “FWCA”) serves as the Fund’s investment adviser (the “Adviser”). FWCA has engaged THL Credit Advisors LLC (the “Sub-adviser” or “THL Credit”) to serve as the sub-adviser to the Fund.

## 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company that applies the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board. The Fund’s financial statements have been prepared to comply with U.S. generally accepted accounting principles (“U.S. GAAP”). These principles require the Fund’s Adviser to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates. The Fund follows the significant accounting policies described in this section, as well as the valuation policies described in the next section on valuation.

The following summarizes the significant accounting policies followed by the Fund in the preparation of its financial statements.

**Securities Valuation:** The Fund holds portfolio securities that are fair valued at the close of each day on the New York Stock Exchange (“NYSE”), normally at 4:00 P.M., Eastern Time. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Trustees (the “Board”) has delegated fair valuation responsibilities to a valuation committee (the “Committee”), subject to the Board’s supervision and direction, through the adoption of procedures for valuation of the Fund’s securities (the “Valuation Procedures”). The Committee consists of certain designated individuals of the Fund’s Adviser and Sub-adviser. Under the current Valuation Procedures, the Committee is responsible for, among other things, determining and monitoring the value of the Fund’s assets. The Valuation Procedures allow the Fund to utilize independent pricing vendor services, quotations from market makers and other valuation methods in events when market quotations are not readily available or not representative of the fair value of the securities.

The Fund’s securities are valued by various methods, as described below:

Senior Loans are valued at prices supplied by the Fund’s pricing agent based on broker-dealer supplied valuations (including mid or average prices) and other criteria or directly by independent brokers when the pricing agent does not provide a price or the Valuation Committee does not believe that the pricing agent price reflects the current market value. If a price of a position is sourced using independent brokers, the Sub-adviser shall seek to obtain an evaluation bid price from at least two independent brokers who are knowledgeable about the position. The price of the position would be deemed to be an average of such bid prices.

Fixed income securities (including short-term obligations) are valued at prices supplied by the Fund’s pricing agent based on broker-dealer supplied valuations, or in the absence of broker-dealer supplied valuations, matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

Non-exchange traded equity securities are valued at prices supplied by the Fund’s pricing agent based on the last bid prices quoted by brokers that are knowledgeable about the securities.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Money market funds are valued based on the Fund's proportionate interest in its net assets.

### *Fair Value Measurement*

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, quoted prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Level 3 — Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the Fund's own assumptions that a market participant would use in valuing the asset or liability based on the best information available.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933 as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investment). Examples of events that may be "significant events" are government actions, natural disasters, armed conflicts and acts of terrorism.

The categorization of a value determined for investments is based on the pricing transparency of the investment and does not necessarily correspond to the Fund's perceived risk of investing in those securities.

The valuation techniques used by the Fund to measure fair value during the six months ended June 30, 2017 were intended to maximize the use of observable inputs and to minimize the use of unobservable inputs.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

The following table summarizes the valuation of the Fund's investments under the fair value hierarchy levels as of June 30, 2017:

Asset Type	Level 1	Level 2	Level 3	Total
<b>Senior Loans</b>				
Aerospace & Defense . . . . .	\$ —	\$ 2,968,750	\$ 2,498,074	\$ 5,466,824

\* Please refer to Schedule of Investments for breakdown of valuations by industry.

**2. SIGNIFICANT ACCOUNTING POLICIES (continued)**

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	<u>Senior Loans</u>
Balance as of December 31, 2016 . . . . .	\$ 60,645,762
Realized gain . . . . .	104,811
Change in unrealized appreciation . . . . .	791,243
Amortization (accretion) . . . . .	49,848
Purchases . . . . .	6,175,308
Sales and principal paydowns . . . . .	(16,962,881)
Transfers into Level 3 . . . . .	6,040,932
Transfers out of Level 3 . . . . .	(13,825,384)
Balance as of June 30, 2017 . . . . .	<u>\$ 43,019,639</u>
Net change in unrealized appreciation attributable to level 3 investments held at June 30, 2017 . .	<u>\$ 793,888</u>

Investments were transferred into and out of Level 3 and into and out of Level 2 during the six month ended June 30, 2017 due to changes in the quantity and quality of information obtained to support the fair value of each investment as assessed by the Advisor.

There were no transfers between Level 1 and 2 during the period. It is the Fund’s policy to recognize transfers into and out of all levels at the beginning of the reporting period.

The valuation techniques and significant amounts of unobservable inputs used in Fund’s Level 3 securities are outlined in the table below:

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Input</u>	<u>Range</u>
Senior Loans . . . . .	\$43,019,639	Third-party vendor service	Vendor quotes	N/A

**Cash**

Cash of the Fund consists of cash held in bank accounts that, at times, may exceed the federally insured limits. As of June 30, 2017, cash was comprised of cash deposited with U.S. financial institutions in which carrying values approximated fair value and are considered to be Level 1 in the fair value hierarchy.

**Investment Transactions and Investment Income**

Investment transactions are accounted for on the trade date. Interest income, adjusted for the accretion of discount and amortization of premiums, is recorded on an accrual basis. Realized gains and losses on investments, if any, are determined on an identified cost basis. Dividend income is recorded on the ex-dividend date. Paydown gains and losses are netted and recorded as interest income on the Statement of Operations.

**Interest Expense and Fees on Borrowings**

Interest expense and fees on borrowings relates to the Fund’s borrowings and includes interest paid plus any commitment fees on unused balances. They are recorded on an accrual basis.

**Federal Income Tax Information**

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements of Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of its earnings to its shareholders. In early 2017, the Fund paid an excise tax liability of approximately \$29,030 relating to the tax year 2016.

## 2. SIGNIFICANT ACCOUNTING POLICIES (concluded)

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund as a whole.

Fund management has determined that the Fund has not taken any uncertain tax positions that require adjustment to the financial statements. The Fund will file income tax returns in the U.S. federal jurisdiction and tax returns in certain other jurisdictions. As of June 30, 2017, the tax years ended December 31, 2013, 2014 and 2015 remains subject to examination by the Fund's major tax jurisdictions.

### *Distributions*

The Fund intends to make regular monthly cash distributions of all or a portion of its investment company taxable income (which includes ordinary income and short-term capital gains) to common shareholders. The Fund also intends to pay any "net capital gains" (which is the excess of net long-term capital gains over net short-term capital losses) annually. Distributions to shareholders are recorded on the ex-dividend date. To the extent distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as distributions to shareholders from return of capital.

### *Indemnifications*

Under the Fund's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

## 3. SENIOR LOANS

Under normal market conditions, the Fund will invest at least 80.0% of its Managed Assets, defined as the total assets of the Fund (including any assets attributable to borrowings for investment purposes), minus the sum of the Fund's accrued liabilities (other than liabilities representing borrowings for investment purposes), in fully collateralized, first lien corporate loans and notes. At June 30, 2017, 80.4% of the Fund's Managed Assets were held in first lien Senior Loans.

Senior Loans are generally non-investment grade floating rate instruments that are secured by assets of the borrower. They generally hold a senior position in the capital structure of a borrower. Thus, they are generally repaid before unsecured Bank Loans, corporate bonds, subordinated debt, trade creditors, and preferred or common stockholders.

Senior Loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual maturity may be substantially less than the stated maturity shown. Senior loans typically pay interest at rates that are periodically determined on the basis of a floating benchmark lending rate plus a spread.

Risks associated with first lien Senior Loans include (i) the borrower's inability to meet principal and interest payments on its obligations; (ii) the fact that prepayments may occur at any time without premium or penalty and that the exercise of prepayment rights during periods of declining spreads could cause the Fund to reinvest prepayment proceeds in lower-yielding investments; and (iii) price volatility due to such factors as interest rate sensitivity, market perception of the credit worthiness of the borrower and general market liquidity.

### 3. SENIOR LOANS (concluded)

Second lien loans are generally second in line in terms of repayment priority. Second lien loans generally are subject to similar risks as those associated with investments in first lien Senior Loans. In addition, because second lien loans are subordinated in payment and/or lower in lien priority to first lien Senior Loans, they are subject to additional risk that the cash flow of the borrower and property securing the loan or debt may be insufficient to meet scheduled payments after giving effect to the senior secured obligations of the borrower. At June 30, 2017, the Fund had invested \$13,676,727 in second lien loans.

The Fund may purchase assignments of, and participations in, Senior Loans originated, negotiated and structured by a U.S. or foreign commercial bank, insurance company, finance company or other financial institution (the "Agent") for a lending syndicate of financial institutions (the "Lender"). When purchasing an assignment, the Fund succeeds to all the rights and obligations under the loan agreement with the same rights and obligations as the assigning Lender. Assignments may, however, be arranged through private negotiations between potential assignees and potential assignors, and the rights and obligations acquired by the purchaser of an assignment may differ from, and be more limited than, those held by the assigning Lender.

### 4. BORROWINGS

On September 28, 2016, the Fund amended its existing credit agreement with The Bank of New York Mellon, extending the facility's expiration date to September 27, 2017 and reducing the facility size to \$65.0 million (the "Credit Facility"). In accordance with the 1940 Act, the Fund's borrowings under the Credit Facility will not exceed 33% of the Fund's Managed Assets at the time of borrowing. Borrowings under the Credit Facility are secured by the Fund's assets as collateral.

The Credit Facility bears an unused commitment fee on the Unused Facility Amount equal to 0.05% if the outstanding principal balance is equal to or greater than 90% of the Credit Facility on such date, 0.10% if the outstanding principal balance is equal to or greater than 80% but less than 90% of the Credit Facility on such date, or 0.20% if the outstanding principal balance is less than 80% of the Credit Facility on such date. The per annum rate of interest for the borrowings under the Credit Facility is equal to (a) the London Interbank Offered Rate ("LIBOR") for one, two, three, six or twelve months, as selected by the Fund, plus 0.80% per annum or (b) the greater of (i) the Prime Rate and (ii) 0.50% plus the Federal Funds Effective Rate per annum and is payable at the end of the selected contract period.

At June 30, 2017, the Fund had borrowings outstanding of \$58,000,000 at an average interest rate of 1.93%. For the six month period ended June 30, 2017, the average borrowings under the Credit Facility and the average interest rate were \$56,883,978 and 1.72%, respectively. For the six month ended June 30, 2017, the Fund incurred \$6,219 for unused commitment fees, which is included in Interest Expense and Fees on Borrowings on the Statement of Operations. As of June 30, 2017, the Fund's effective leverage represented 29.6% of the Fund's Managed Assets. Due to the short term nature of the Credit Facility, face value approximates fair value at June 30, 2017.

Under the Credit Facility, the Fund has agreed to certain covenants and additional investment limitations while the leverage is outstanding. The Fund agrees to maintain asset coverage of three times over outstanding borrowings.

The Fund utilizes the Credit Facility to increase its assets available for investment. When the Fund leverages its assets, common shareholders bear the fees associated with the Credit Facility and have the potential to benefit from or be disadvantaged by the use of leverage. The investment advisory fee is also increased in dollar terms from the use of leverage. Consequently, the Fund and the Adviser may have differing interest in determining whether to leverage the Fund's assets. Leverage creates risks that may adversely affect the return for the holders of common shares, including:

- the likelihood of greater volatility of net asset value and market price of common shares;

#### 4. BORROWINGS (concluded)

- fluctuations in the interest rate paid for the use of the credit facility;
- increased operating costs, which may reduce the Fund's total return;
- the potential for a decline in the value of an investment acquired through leverage, while the Fund's obligations under such leverage remains fixed; and
- the Fund is more likely to have to sell securities in a volatile market in order to meet asset coverage or other debt compliance requirements.

To the extent the income or capital appreciation derived from securities purchased with funds received from leverage exceeds the cost of leverage, the Fund's return will be greater than if leverage had not been used; conversely, returns would be lower if the cost of the leverage exceeds the income or capital appreciation derived.

In addition to the risks created by the Fund's use of leverage, the Fund is subject to the risk that it would be unable to timely, or at all, obtain replacement financing if the Credit Facility is terminated. Were this to happen, the Fund would be required to de-leverage, selling securities at a potentially inopportune time and incurring tax consequences. Further, the Fund's ability to generate income from the use of leverage would be adversely affected.

#### 5. MANAGEMENT FEES, ADMINISTRATIVE FEES AND OTHER AGREEMENTS

The Adviser administers the business and affairs of the Fund. The Adviser also selects (subject to Board approval), contracts with and compensates the Sub-adviser to manage the investment and reinvestment of the assets of the Fund. The Adviser does not itself manage the Fund's portfolio of assets but has ultimate responsibility to oversee the Sub-adviser. In this connection, the Adviser oversees the Sub-adviser's management of the Fund's investment operations in accordance with the investment objectives and related policies of the Fund, reviews the Sub-adviser's performance and reports periodically on such performance to the Board.

The Fund pays the Adviser as compensation under an advisory agreement an annual fee in the amount of 1.05% of the average daily Managed Assets.

The Fund has retained Four Wood Capital Partners LLC ("FWCP"), an affiliate of the Adviser, to provide investor support services in connection with the on-going operation of the Fund. Such services include providing ongoing contact with respect to the Fund and its performance with financial advisors that are representatives of broker-dealers and other financial intermediaries and communicating with the NYSE specialist for the Fund's common shares, and with the closed-end analyst community regarding the Fund on a regular basis. The Fund pays FWCP as compensation under an investor support services agreement an annual fee in the amount of 0.05% of the average daily Managed Assets of the Fund. FWCP may separately contract with and coordinate the activities of a third party to provide certain of the above described services.

The Bank of New York Mellon, the Fund's administrator, accounting agent and custodian, holds the Fund's assets, will settle all portfolio trades and will be responsible for calculating the Fund's net asset value and maintaining the accounting records of the Fund.

American Stock Transfer and Trust Company, LLC is the Fund's transfer agent, registrar, dividend disbursing agent and shareholder servicing agent, as well as the agent for the Fund's dividend reinvestment plan.

Foreside Compliance Services, LLC provides a Chief Compliance Officer to the Fund.

**5. MANAGEMENT FEES, ADMINISTRATIVE FEES AND OTHER AGREEMENTS (concluded)**

The Fund pays every independent trustee a fee of \$17,000 per annum, plus \$3,000 per in person meeting and \$500 per substantive conference call fee for serving as a trustee of the Fund. In addition, the Fund pays members of the Audit Committee a fee of \$2,000 per annum and members of the Nominating and Corporate Governance Committee a fee of \$1,000 per annum. Interested trustees and officers of the Fund do not receive any remuneration from the Fund.

**6. PORTFOLIO TRANSACTIONS**

For the six month ended June 30, 2017, purchases and sales of investments, other than short-term securities, were \$49,712,758 and \$52,150,888, respectively.

**7. CAPITAL**

The following is a summary of share transactions for the six month ended June 30, 2017:

Shares of common stock, beginning of period	7,418,990
Change in shares of common stock outstanding	—
Shares of common stock, end of period	<u>7,418,990</u>

**8. INCOME TAX INFORMATION**

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed to not meet the more-likely-than-not threshold. For the six month period ended June 30, 2017, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2017, the Advisor has reviewed all open tax years and concluded that there was no impact to the Fund’s net assets or results of operations. Tax years ended December 31, 2014, 2015 and 2016 will remain subject to examination by the Internal Revenue Service and state taxing authorities. On an ongoing basis, the Advisor will monitor its tax positions to determine if adjustments to this conclusion are necessary.

The Fund distinguishes between dividends on a tax basis and on a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as a tax return of capital. Differences in the recognition or classification of income between the financial statements and tax earnings and profits which result in temporary over-distributions for financial statement purposes are classified as distributions in excess of net investment income or accumulated net realized losses in the components of net assets on the Statement of Assets and Liabilities.

The amounts and characteristics of tax basis distributions and composition of distributable earnings/ (accumulated losses) are finalized at the fiscal year end; accordingly, tax basis balances have not been determined as of June 30, 2017.

As determined at December 31, 2016, certain permanent differences between financial and tax accounting were reclassified. These differences were primarily due to the differing tax treatment of certain investments and the payment of excise taxes. The amounts reclassified did not affect net assets. The reclassifications decreased accumulated net realized loss on investments by \$371,439, decreased accumulated net investment income by \$358,024 and decreased paid-in-capital by \$13,415.

**8. INCOME TAX INFORMATION (concluded)**

The tax character of distributions paid by the Fund during the fiscal years ended December 31, are as follows:

	Ordinary Income	Long-Term Capital Gain
2015 .....	\$9,993,250	\$ —
2016 .....	\$9,422,116	\$ —

As of December 31, 2016 the Fund had accumulated net realized capital loss carryovers from security transactions for Federal income tax purposes as shown in the table below. This amount may be used to offset realized capital gains if any, for an unlimited time.

Short-Term	Long-Term	Total
\$ —	\$1,077,836	\$1,077,836

The Regulated Investment Company Modernization Act of 2010 (the “Act”) eliminated the eight-year carryover period for capital losses that arise in taxable years beginning after its enactment date of December 22, 2010. Consequently, these capital losses can be carried forward for an unlimited period. However, capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Additionally, post-enactment capital loss carryovers will retain their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The Fund does not have capital losses with no expiration.

Certain capital and qualified late year losses incurred after October 31, and within the current taxable year, are deemed to arise on the first business day of the Fund’s following taxable year. During the fiscal year ended December 31, 2016, the Fund did not incur such losses.

At December 31, 2016, the tax components of net assets was as follows:

Undistributed Net Investment Income	Accumulated Net Realized Loss on Investments	Net Unrealized Depreciation on Investments
\$866,768	\$1,077,835	\$2,873,764

At June 30, 2017, the cost basis of portfolio securities for federal income tax purposes is \$201,283,190. Gross unrealized appreciation is \$2,820,435, gross unrealized depreciation is \$5,993,207 and net unrealized depreciation is \$3,172,772. There is no difference between book and tax cost basis.

**9. DELAYED DRAW LOAN COMMITMENTS**

As of June 30, 2017, the Fund had the following unfunded loan commitments outstanding, which could be extended at the options of the borrower:

Loan	Principal Amount	Cost	Value	Net Unrealized Appreciation
CH Hold Corp. (Caliber Collision), Del Draw – First Lien, 01/25/24 .....	\$37,879	\$37,784	\$38,076	\$292

Delayed draw loan commitments are marked to market on the relevant day of the valuation in accordance with the Fund’s valuation policy. Any related unrealized appreciation (depreciation) on unfunded delayed draw loan commitments is recorded on the Statement of Assets and Liabilities and the Statements of Operations.

**10. SHAREHOLDER CONCENTRATIONS**

As of June 30, 2017, based on public filings and/or information provided by such person, the following shareholder owns more than 5% of the outstanding shares of the Fund:

Shareholder	Percent of Ownership
First Trust Portfolios LP . . . . .	20.30%
Advisors Asset Management Inc. . . . .	13.27%

The Fund’s market price may experience adverse effects when certain large shareholders, such as other funds, institutional investors, financial intermediaries and other investors purchase or sell a large number of shares of the Fund. While such large shareholder transactions would not impact the Fund’s liquidity or market value of the Fund’s investments, such transactions could have an impact on the Fund’s market price and also impact the premium or discount of the market price to its NAV in a more volatile manner than trading by shareholders with smaller holdings.

**11. NEW ACCOUNTING PRONOUNCEMENT**

In October 2016, the Securities and Exchange Commission (SEC) issued a new rule, Investment Company Reporting Modernization, which, among other provisions, amends Regulation S-X to require standardized, enhanced disclosures, particularly related to variable rate securities and derivatives, in investment company financial statements. Compliance with the guidance is effective for financial statements filed with the SEC on or after August 1, 2017; adoption will have no effect on the fund’s net assets or results of operations.

**12. SUBSEQUENT EVENTS**

In preparing these financial statements, the Fund’s management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

On July 31, 2017, the Fund paid a regularly scheduled distribution in the amount of \$0.105 per share to shareholders of record as of July 18, 2017.

The Fund declared a regularly scheduled distribution in the amount of \$0.105 per share payable on August 31, 2017 to shareholders of record as of August 21, 2017.

## **Background**

At meetings (the “Meetings”) of the Board of Trustees (the “Board”) of THL Credit Senior Loan Fund (the “Fund”) on May 10, 2017 and May 25, 2017, the members of the Board, including the Trustees who are not “interested persons” of the Fund (the “Independent Trustees”), as defined in the Investment Company Act of 1940, as amended, considered and re-approved the investment advisory agreement (the “Advisory Agreement”) between the Fund and Four Wood Capital Advisors, LLC (the “Adviser”), pursuant to which the Adviser provides the Fund with investment advisory and administrative services, and the subadvisory agreement (the “Subadvisory Agreement”) between the Adviser and THL Credit Senior Loan Strategies LLC, (the “Subadviser”), pursuant to which the Subadviser provides day-to-day management of the Fund’s investments. The Advisory Agreement and Subadvisory Agreement are together referred to as the “Agreements.” In advance of the Meetings, the Adviser and the Subadviser provided the Independent Trustees with a written response to a formal request for information sent on behalf of the Independent Trustees by their independent legal counsel. The Independent Trustees also received a memorandum from their independent legal counsel concerning the duties of board members in considering approval of investment advisory agreements.

At the Meetings, the Trustees reviewed the Agreements, including information regarding the nature, extent and quality of the services provided by the Adviser and the Subadviser; the investment performance of the Fund; fees and expenses to be paid by the Fund and the profits to be realized by the Adviser, the Subadviser and any affiliates from their respective relationships with the Fund; the extent to which economies of scale may be realized as the Fund grows; and any collateral benefits received by the Adviser or Subadviser and any affiliates from their respective relationships with the Fund or the Fund’s service providers.

In its consideration of the reapproval of the Agreements, the Board considered the following factors:

### **Nature, Extent and Quality of Services Provided**

At the Meetings, and at meetings conducted during the preceding year, the Board reviewed and considered various data and information regarding the nature, extent and quality of the services provided to the Fund by the Adviser and the Subadviser under the Agreements. The Board reviewed information about the background and experience of the staff of the Adviser and the investment personnel of the Subadviser primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered the Adviser’s overall ability to manage and administer the Fund as well as to oversee the Fund’s other service providers.

The Board evaluated the ability of the Adviser and the Subadviser, considering their financial condition, resources, reputation and other attributes, to attract and retain highly qualified personnel. In this regard, the Board considered information regarding the Subadviser’s compensation program for its personnel involved in the portfolio management of the Fund.

The Board reviewed the Adviser’s process for monitoring and evaluating the Fund’s Subadviser. The Board considered the effectiveness of the Subadviser’s policies in achieving the best execution of portfolio transactions and whether and to what extent “soft dollar” benefits are sought. The Board noted that the Adviser does not conduct trades on behalf of the Fund and reviewed the policies of the Subadviser regarding the allocation of portfolio investment opportunities among the Fund and other clients. Additionally, the Board noted that the Subadviser did not use “traditional soft-dollar” arrangements, where soft-dollar credits are generated based on the level of trades and then used for products or services from third parties.

In addition, the Board considered the legal, compliance and internal risk management programs of the Adviser and the Subadviser. In addition, the Board considered the Adviser’s and the Subadviser’s disaster recovery and business continuity plans, corporate action policies and procedures, cybersecurity programs and procedures and proxy voting policies. The Board concluded that the nature and quality of services provided by the Adviser and the Subadviser were appropriate and supported continuation of the Agreements.

## Performance

The Board considered the Fund's performance results over the one-year, two-year and three-year periods ending March 31, 2017, and since inception. It also considered these results in comparison to the performance results of other funds in appropriate peer universes and to benchmark indices as provided by Broadridge Financial Solutions, Inc. ("Broadridge"). The Board referenced the performance portion of the Broadridge presentation included in the meeting materials and noted that the Fund had outperformed a majority of its comparable peers for the one, two and three-year periods and underperformed since inception.

## Investment Advisory Fee Rates

The Board reviewed and considered the proposed contractual investment advisory fee rate payable by the Fund to the Adviser for investment advisory services, as well as the "fee split" between the Adviser and the Subadviser. Additionally, the Board received and considered information comparing the advisory fee rate and the Fund's total expense ratios with those of other funds in appropriate peer universes. The Board considered that the split represented a reasonable allocation of the responsibilities between the Adviser and the Subadviser.

The Board also considered the fees charged by the Subadviser for other products or accounts that pursue an investment objective and strategies that are similar to those of the Fund. The Board received and considered a profitability analysis of the Adviser and the Subadviser with respect to the Fund. The Board concluded that, in light of the costs of providing investment management and other services to the Fund, the profits and other ancillary benefits that the Adviser and Subadviser respectively received with regard to providing these services to the Fund were not excessive. The Board concluded that the advisory fees were appropriate in light of the quality of the services provided.

## Economies of Scale

It was noted that, because the Fund is a closed-end fund that is not continually offering shares, any increase in asset levels generally would have to come from material appreciation through investment performance, which had not occurred. It was further noted that the Fund's investment objective is to provide current income and that much of the Fund's realized income was distributed to shareholders through monthly dividends. While the Adviser and Fund are realizing minor benefits in the form of reduced expenses as a result of the Adviser's management of a second registered fund, the Adviser is not realizing material benefits from economies of scale associated with an increase in assets under management.

## Other Benefits to the Adviser and Subadviser and Their Affiliates

The Board received and considered information regarding potential collateral benefits to the Adviser and the Subadviser as a result of their respective relationships with the Fund or the Fund's service providers. It was noted that the Fund had entered into an Investors Support Services Agreement with Four Wood Capital Partners, LLP ("FWCP"), an affiliate of the Adviser, pursuant to which FWCP provides the Fund with certain personnel and services not otherwise provided under the Advisory Agreement, and the Fund pays FWCP for such services.

## Conclusion

After deliberation and consideration of the information provided, including weighing all of the above factors, the Board unanimously concluded that the advisory fees were reasonable in light of the services to be provided by the Adviser and the Subadviser to the Fund. Further, the Board unanimously concluded that it would be in the best interests of the Fund and its shareholders to re-approve and continue each of the Agreements for a one-year period ending August 31, 2018. In reaching this conclusion, the Board did not give particular weight to any single factor referenced above. It is possible that each Trustee may have weighed these factors differently in reaching their individual decisions to re-approve the Agreements.

## Privacy Policy

### Respecting Your Privacy

This privacy policy applies to individuals, and we reserve the right to change any or all of the principles, along with related provisions, at any time. You trust us with your financial and other personal information; we in turn are committed to respect your privacy and safeguard that information. By adhering to the practices described in this Policy, we affirm our continuing commitment to protecting your privacy.

### Collection and use of shareholder information

The THL Credit Senior Loan Fund (the “Fund”) and the Fund’s transfer agent collect only relevant information about the Fund’s shareholders that the law allows or requires us to have in order to conduct our business and properly service you. We collect non-public financial and other personal information about you from the following sources (“Personal Information”):

- Information you provide on applications or other forms (for example, your name, address, social security number and birth date)
- Information derived from your transactions with us (for example, transaction amount, account balance and account number)
- Information you provide to us if you access account information or conduct account transactions online (for example, password, account number, e-mail address, alternate telephone number)

### Keeping information secure

We maintain physical, electronic and procedural safeguards to protect your Personal Information, and we continually assess new technology with the aim of adding new safeguards to those we have in place.

### Use of personal and financial information by us and third parties

We do not sell Personal Information about current or former customers or their accounts to any third parties, and we have policies and procedures intended to prevent the disclosure of such information to third parties unless necessary to support the operations and administration of the Fund, the Fund’s compliance with applicable laws and regulations, or as otherwise permitted by law. Those who may receive Personal Information include companies that provide services to the Fund, such as transfer agency, technology and administrative services, as well as the investment advisor who is an affiliate of the Fund (collectively, “Service Providers”).

### Limiting employee access to information

We limit access to Personal Information to only those employees of the Service Providers with a business reason to know such information.

### Accuracy of information

We strive to keep our records of your Personal Information accurate, and we take immediate steps to correct errors. If there are any inaccuracies in your statements or in any other communications from us, please contact us or contact your investment professional.

### Dividend Reinvestment Plan

The Dividend Reinvestment Plan (“Plan”) for THL Credit Senior Loan Fund (“Fund”), provides that a holder of the Fund’s common shares of beneficial interest (each, a “Common Share” and, collectively “Common Shares”) will be automatically enrolled in the Plan (each, a “Participant” and collectively, “Participants”). All dividends and distributions on such Shareholder’s Common Shares will be reinvested by American Stock Transfer and Trust Company, LLC (“Plan Administrator”), as agent for Shareholders

**Dividend Reinvestment Plan (continued)**

in administering the Plan, in additional Common Shares. Participation in the Plan may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be paid in cash, please contact your broker.

**Plan Details**

1. The Plan Administrator will open an account for each holder of Common Shares under the Plan in the same name in which such holder of Common Shares is registered. Whenever the Fund declares a dividend or other distribution (together, a “Dividend”) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants’ accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (“Newly Issued Common Shares”) or (ii) by purchase of outstanding Common Shares on the open market (“Open-Market Purchases”) on the New York Stock Exchange or elsewhere.
2. If, on the payment date for any Dividend, the closing market price plus estimated per share fees (which include any brokerage commissions the Plan Administrator is required to pay) is equal to or greater than the net asset value (“NAV”) per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant’s account will be determined by dividing the dollar amount of the Dividend by the NAV per Common Share on the payment date; provided that, if the NAV is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the NAV per Common Share is greater than the closing market value plus per share fees, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an “ex-dividend” basis or 30 days after the payment date for such Dividend, whichever is sooner (the “Last Purchase Date”), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases. It is contemplated that the Fund will pay monthly income Dividends. Therefore, the period during which Open-Market Purchases can be made will exist only from the payment date of each Dividend through the date before the next “ex-dividend” date which typically will be approximately ten days. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common Share exceeds the NAV per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the NAV of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the NAV per Common Share at the close of business on the Last Purchase Date provided that, if the NAV is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

**Dividend Reinvestment Plan (concluded)**

3. The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.
4. In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.
5. There will be no charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a per share fee incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such dividends. Participants that request a sale of shares through the Plan Administrator are subject to a \$15.00 sales fee and a \$0.10 per Common Share sold. All per share fees include any applicable brokerage commissions the Plan Administrator is required to pay.
6. The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.
7. All correspondence or questions concerning the Plan should be directed to the Plan Administrator, American Stock Transfer and Trust Company LLC, by telephone, 1-888-486-2770, through the Internet at [www.amstock.com](http://www.amstock.com) or in writing to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560.

### **Corporate Governance**

The Fund has filed the required CEO/CFO certifications regarding the quality of the Fund's public disclosure as exhibits to the Forms N-CSR and Forms N-Q filed by the Fund over the past fiscal year. The Fund's Form N-CSR and Form N-Q filings are available on the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov).

### **Proxy Voting Policies and Procedures**

A description of the policies and procedures that are used by the Fund's Sub-Adviser to vote proxies relating to the Fund's portfolio securities is available (1) without charge, upon request, by calling 855-400-3927; and (2) as an exhibit to the Fund's annual report on Form N-CSR which is available on the website of the Securities and Exchange Commission (the "Commission") at <http://www.sec.gov>. Information regarding how the Sub-Adviser voted these proxies during the most recent twelve-month period ending December 31 will be available, without charge, upon request by calling 1-855-400-3927 and on the Commission's website.
